Montageanleitung für das Hebeschiebetürgriff-Set

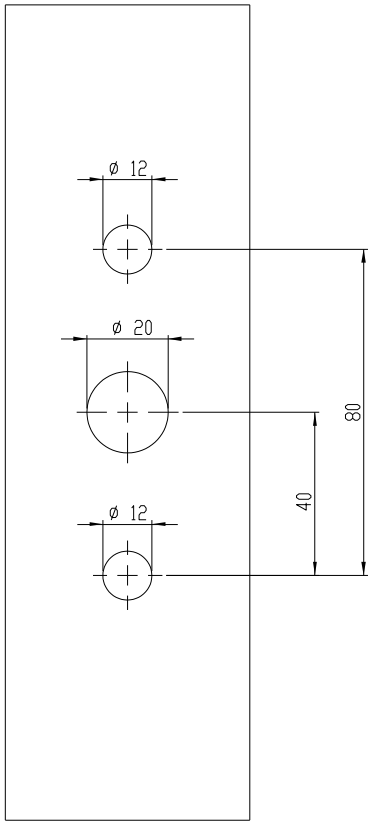

1. Den Hebeschiebetürgriff (2) samt Montageplatte so auf die Türinnenseite setzen, dass der Vierkantstift (10mm x 10mm) in die Schlossnuss hineinragt. Dabei darauf achten, dass der Türgriff in geschlossenen Zustand der Tür nach unten zeigt.
2. Auf der Türaußenseite die Schiebetürmuschel (1) in die Fräsaussparung setzen.
3. Mit den beiliegenden M5-Schrauben (3) die Innen- und Außenseite miteinander verschrauben. Dazu den Türgriff in die waagerechte Position stellen.
4. Die Abdeckkappe (4) auf die Montageplatte (2) setzen und aufdrücken bis es hörbar einrastet.
5. Funktionsprüfung durchführen.

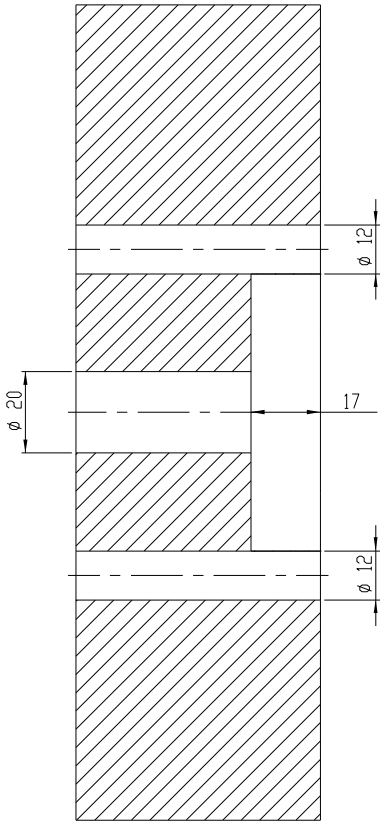

Milling instructions for lift and slide door handle set EHSSET28 UN and EHSSET52Q UN

Before mounting the handle set prepare the door as demonstrated in the pictures below:

KARCHER DESIGN

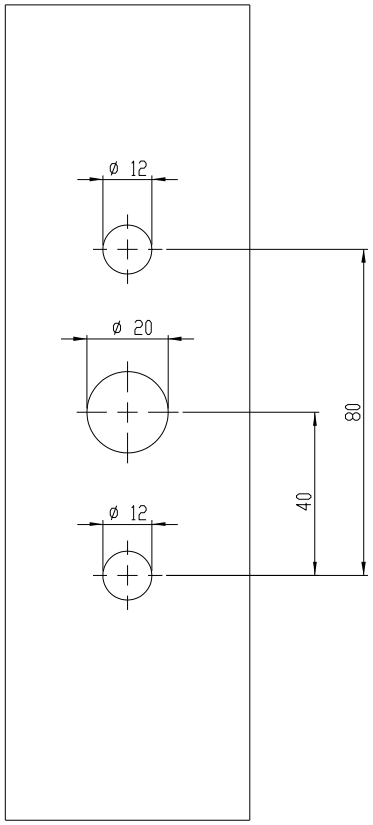

1. Place the handle (2) with the mounting plate on the inside of the door. The spindle (10mm x 10mm) has to extend into the lock follower. Make sure that the handle is pointing downwards when the door is closed.
2. Insert the sliding door handle (1) into the milling cut-outs on the outside of the door.
3. Now put the handle in a horizontal position and bolt the in- and outside together with the attached M5 screws (3).
4. Push the cover cap (4) onto the mounting plate (2) until it locks into place.
5. Do a functionality test.

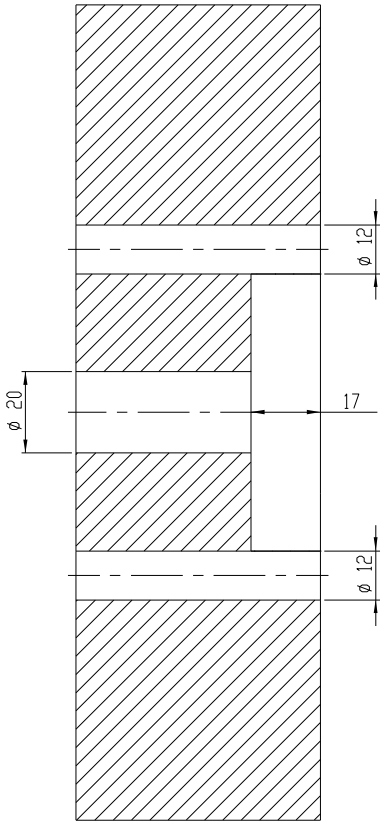

Instruction de fraisage pour poignée de relevage EHSSET28 UN et EHSSET52Q UN pour porte coulissante

Pré-fraiser la porte selon les schémas suivants avant le montage de la poignée de relevage pour porte coulissante

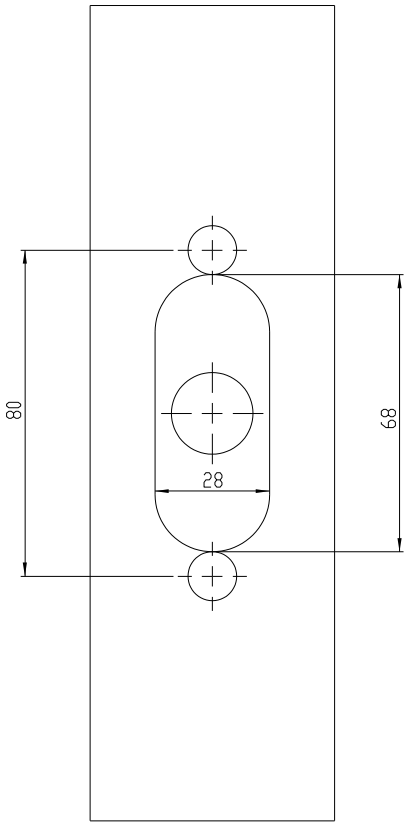

Côté intérieur de la porte

Coupe

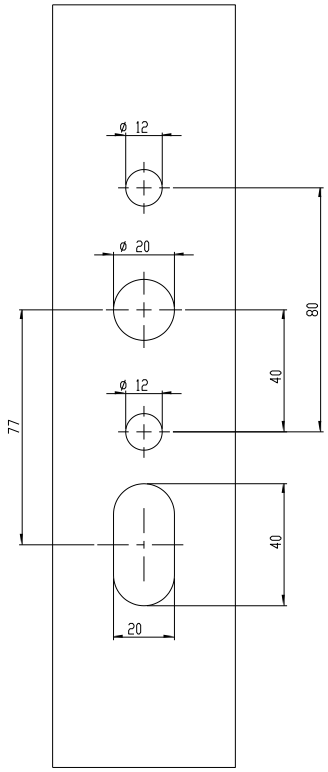

Côté extérieur

Instruction de montage pour poignée de relevage pour porte coulissante

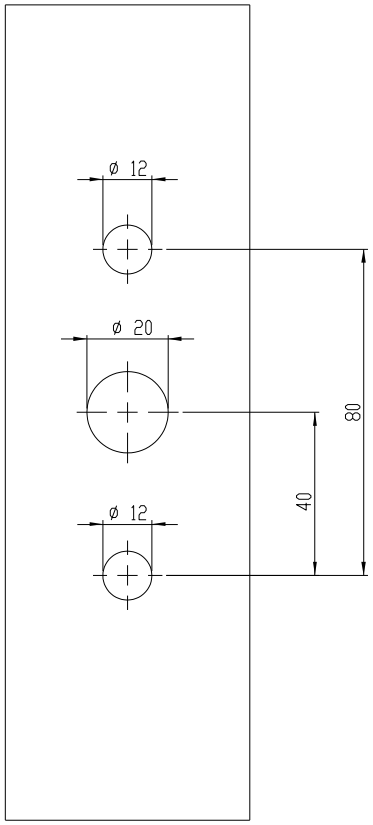

1. Fixer la poignée de relevage pour porte coulissante (2) avec la plaque de montage sur la face intérieure de la porte de manière à ce que le carré (10 mm x 10 mm) puisse être fixé dans le fouillot. Veillez à ce que la poignée soit orientée vers la bas lorsque la porte est fermée.
2. Fixer dans le trou de fraisage la poignée cuvette (1) sur la face extérieure de la porte coulissante
3. Fixer le côté extérieur avec le côté intérieur à l'aide des vis M5 (3) ci-jointes. Pour celà, mettre les poignées en position horizontale.
4. Fixer le capot (4) sur la plaque de montage (2) et appuyer jusqu'à entendre un „déclic"
5. Effectuer un contrôle de fonctionnement.

Istruzioni di montaggio per set per porte scorrevoli

1. Posizionare l’alzante (2) insieme alla piastra di montaggio all'interno della porta in modo che il perno (10mm x 10mm) sporga nel perno della serratura. Assicuratevi che l’alzante sia rivolto verso il basso quando la porta è chiusa.
2. All'esterno della porta, posizionare la maniglia ad incasso (1) nell'incavo fresato.
3. Mettere la maniglia della porta in posizione orizzontale e avvitare l'interno e l'esterno con le viti M5 in dotazione (3).
4. Posizionare il coperchio (4) sulla piastra di montaggio (2) e premerlo finché non si innesta.
5. Controllare il corretto funzionamento.
